Installing Helm

Relevant Documentation

- Installing Helm

Exam Tips

- Helm is a package management tool for Kubernetes applications.

Lesson Reference

Log in to the **control plane node**.

Setup the Helm GPG key and package repository.

```
curl https://baltocdn.com/helm/signing.asc | sudo apt-key add -

echo "deb https://baltocdn.com/helm/stable/debian/ all main" | sudo tee /etc/apt/sources.list.d/helm-stable-debian.list
```

Install the Helm package.

```
sudo apt-get update

sudo apt-get install -y helm
```

Verify the installation.

```
helm version
```
